*For height above 2400 mm two insect nets and one installation set ZOZ 157 is needed

*For other sizes, please order as a special order. Please contact VELUX NN

Minimum distance between roof windows is 110 mm. The wall around the windows must be in the same level.

If you cannot reach the top of your roof window, remember to order an operation rod (ZCZ 080K) and adapter (ZOZ 085).
