GENERAL NOTES

1. This drawing emphasizes the CSV Double Dome Smoke Vent. It illustrates a general arrangement layout (plus recommendations) for a CSV installation in a 0-60 degree roof pitch application. The CSV Double Dome Smoke Vent installs directly on site built or prefabricated curbs.

2. The architectural/structural design and specifications for the inclusion of a commercial smoke vent, such as the CSV Double Dome Smoke Vent, in any roofing/ceiling application is determined and provided by others. The design criteria includes, but is not limited to design loads, structural configurations, structural framing member sizes and material, architectural finishes and integration with the roofing/ceiling systems of the building. VELUX recommends compliance by all designers and installers with all local and industry specific building codes and guidelines. VELUX assumes no responsibility or liability in the design, construction and performance of a building structure by others.

3. The CSV Frame is mill finish.
