**NOTES:**

1. The ROUGH OPENING dimension is based on perpendicular interior finish material on all sides and this dimension will vary depending on the roof construction, the thickness and the design of the interior finish material.

2. 2" nails fasten flashing to rafters through hole at each top and bottom corner. 1½" nails to fasten flashing to roof deck through pre-punched holes along flashing flange.

3. Water diverter provided along top and right side, as viewed from exterior. Skylight can be rotated so that right side is at top for applications where skylight needs to be rotated 90 degrees.
