

The VELUX Sun Tunnel[®] Solar Night Light

Produces low-level light after the sun sets so you can enjoy light day *and* night.

The Solar Night Light is made of a 3" x 7" solar panel that charges two 'AA' batteries. These batteries power three LED lights that diffuse low-level light automatically when no daylight is detected, providing you with enough light to navigate any light-night trips to the bathroom or kitchen.

- Mounts discreetly in seconds
- Charges in less than 6 hours under ideal conditions¹
- Provides light for 72 hours when fully charged

Available for VELUX Rigid, Residential Sun Tunnels[®]

^{*}Federal Solar Tax credit applies to entire Sun Tunnel[®] purchase and installation. For detailed information visit: veluxusa.com/go-solar
